Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-15 are rejected under 35 U.S.C. 102(e) as being anticipated by Pre-Grant Publication No. US 2004/0134977 A1 to O'Dwyer et al., as evidenced by U.S. Patent No. 4,702,774 to Spurgeon.

O'Dwyer et al. discloses an envelope comprising front and rear panels, a seal flap, a polymeric adhesive on the seal flap and a "volatile, water-insoluble essential oil such as orange oil" (see paragraph [0024]) that produces a taste upon application of moisture to the polymeric adhesive on the seal flap. However, O'Dwyer et al. does not specify that the orange oil a fragrance. The orange oil used in O'Dwyer et al. is known to provide a fragrance, as evidenced by Spurgeon (see column 2, lines 17-27). Therefore, the orange oil in O'Dwyer et al. has the claimed flavor substance and fragrance corresponding to the flavor substance.

Furthermore, O'Dwyer et al. meets the method steps of claims 12-15, since O'Dwyer et al. meets the structure implied by those method steps.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

4. Applicant is duly reminded that a complete response must satisfy the requirements of 37 C.F. R. 1.111, including: "The reply must present arguments pointing out the specific distinctions believed to render the claims, including any newly presented claims, patentable over any applied references. A general allegation that the claims "define a patentable invention" without specifically pointing out how the language of the claims patentably distinguishes them from the references does not comply with the requirements of this section. Moreover, "The prompt development of a clear Issue requires that the replies of the applicant meet the objections to and rejections of the claims." Applicant should also specifically point out the support for any amendments made to the disclosure. See MPEP 2163.06 II(A), MPEP 2163.06 and MPEP 714.02. The "disclosure" includes the claims, the specification and the drawings.
